Professional Summary

Full-Stack Software Engineer with hands-on experience shipping production web applications end-to-end using Java, Spring Boot, React.js, and MongoDB. Comfortable owning a feature from database schema through deployed UI, including authentication, REST API design, and role-based access control. NIIT StackRoute-certified Full Stack Developer (GenAI specialization) with practical experience in AI-assisted development workflows using Claude Code. Seeking a Software Development Engineer role to build and scale production systems from day one.

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, SQL, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, React.js, Node.js, Material UI (MUI), Tailwind CSS
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, REST APIs, JWT Authentication, Vercel, Claude Code
- **Practices:** Full-Stack Deployment, Role-Based Access Control, Prompt Engineering, AI-Assisted Development

Experience

Web Development & Operations Intern

Feb 2026 – Present

Tenacity Security

West Bengal, India

- Collaborate cross-functionally to build and maintain the company website, delivering front-end and back-end features
- Support the deployment pipeline end-to-end, from local development through production release
- Assist with employee enrollment and payroll workflows, gaining exposure to organization-level operations

Projects

FinVault – Personal Finance Tracker

Feb 2026 – Apr 2026

Solo Project | GitHub | Live Demo

- Designed a split-bill and social connections system enabling users to link accounts and settle shared expenses
- Implemented a passbook-style transaction history with filtering and categorization to streamline expense tracking
- Secured the application with JWT authentication and protected REST routes; deployed to production on Vercel
- Tech Stack: Java, Spring Boot, React.js, MongoDB, JWT, REST API, Vercel

Full-Stack Kanban Board

Sep 2024 – Dec 2025

Solo Project (NIIT StackRoute) | GitHub | Live Demo

- Built a drag-and-drop task manager with dynamic, customizable workflow columns using React.js and Spring Boot
- Implemented JWT authentication and role-based access control to scope what each user can see and manage
- Designed MongoDB schemas for data persistence; deployed live on Vercel
- Tech Stack: Java, Spring Boot, React.js, MongoDB, MUI, JWT, REST API, Vercel

Jukebox – Music Library Manager

Oct 2025

Solo Project (NIIT StackRoute) | GitHub

- Built a CLI-based music library manager in Core Java with playlist creation and browsing by artist and genre
- Applied OOP principles and Java File I/O to persist data across sessions
- Tech Stack: Core Java, File I/O, Object-Oriented Programming

Training & Certifications

Full Stack Development with GenAI – Honours Program

Apr 2025 – Dec 2025

NIIT StackRoute – Certified Software Engineer

Certified Jan 2026

- Completed an intensive 8-month, industry-aligned program; built multiple full-stack projects assessed by NIIT's Academic Council

Claude Code & Claude Code in Action

Apr 2026

Anthropic

Education

Bachelor of Engineering, Computer Engineering

Savitribai Phule Pune University

Maharashtra, India

Class XII, CBSE

D.A.V. Public School

Jamshedpur, India

Leadership & Extracurricular Activities

- Team Captain, Volleyball and Basketball, at both school and college level
- Volunteered at multiple state-level sports tournaments, coordinating with organizers and fellow volunteers
